

# Security Summit

Milano 17-18-19 marzo 2026

**Sessione**

**Cyber research: what is coming**

**Giorgio Sbaraglia** | Clusit  
**Marco Lucchina** | Cynet

# CHI SONO

Giorgio Sbaraglia, ingegnere

- Information & Cyber Security Advisor
- DPO (Data Protection Officer)
- Membro del Comitato Direttivo

-  Coordinatore scientifico dei Master “[Cybersecurity e Data Protection](#)” della 24Ore Business School

- Collaboratore redazione [www.cybersecurity360.it](http://www.cybersecurity360.it)

CYBERSECURITY360

- Scrivo per <https://www.datamanager.it>

- E per <https://www.html.it/>

RAPPORTO

sulla Cybersecurity  
in Italia e nel mondo

2026

# ANALISI CLUSIT DEI PRINCIPALI ATTACCHI A LIVELLO GLOBALE

# Incidenti Cyber per anno 2021 - 2025

**+49%**

*è l'aumento degli  
incidenti cyber nel  
2025 rispetto al  
2024*

© Clusit - Rapporto 2026 sulla Cybersecurity

# Attaccanti 2021 - 2025

**9 su 10**

sono incidenti di matrice Cybercrime rispetto alle altre tipologie

**+55%**

È la crescita degli incidenti Cybercrime dal 2024 al 2025

© Clusit - Rapporto 2026 sulla Cybersecurity

## Distribuzione delle tecniche di attacco 2025

**1 su 4**

*È un incidente  
causato da Malware,  
al 1° posto nel 2025*

**+65%**

*È la crescita  
del numero degli  
incidenti basati su  
Vulnerabilità*

# Rapporto Clusit 2026 sulla Cybersecurity in Italia e nel mondo

## ANALISI CLUSIT SULLA SITUAZIONE IN ITALIA

# Incidenti Cyber in Italia 2021 - 2025

**+42%**  
è l'aumento degli  
incidenti cyber nel  
2025 rispetto al  
2024 in Italia

© Clusit - Rapporto 2026 sulla Cybersecurity

# Confronto Italia vs. Global 2021 - 2025

**9,6%**

è la percentuale di incidenti cyber avvenuti in Italia rispetto al resto del mondo

© Clusit - Rapporto 2026 sulla Cybersecurity

# Vittime in Italia 2025

**16%**

degli incidenti al settore Manufacturing nel mondo avviene in Italia

**+290%**

è la crescita degli attacchi al settore GOV/MIL/LE in Italia

**+134%**

è la crescita degli attacchi al settore Transportation / Storage in Italia

© Clusit - Rapporto 2026 sulla Cybersecurity

# Tecniche di attacco in Italia 2025

## DDOS

è la principale tecnica di attacco in Italia

**+66%**

è la crescita di incidenti di tipo Phishing / Social Engineering in Italia

**-14%**

è la diminuzione degli incidenti Malware in Italia rispetto al 2024

**-79%**

è la diminuzione degli incidenti basati su vulnerabilità in Italia rispetto al 2024

© Clusit - Rapporto 2026 sulla Cybersecurity

**Qual è il problema?**  
**E qual è la soluzione?**

“You can't defend.

You can't prevent.

The only thing you can do is  
detect and respond.”

***Bruce Schneier***

# ATTACKER MINDSET: PENSA COME PENSA L'ATTACCANTE

“Chi conosce il proprio nemico e  
conosce se stesso potrà affrontare  
senza timore cento battaglie.”  
*Sun Tzu, “L'arte della guerra”*  
(544-496 a.C.)

# Cyber predictions

Marco Lucchina, Country Manager

17/03/2026

Threats don't wait. **Neither do we.**

# Four Forces Widening the Cyber Defense Gap

Organizations are **under attack**.  
Partners are **overwhelmed**.

**Accelerating  
Threat Complexity<sup>1</sup>**

**Security  
Talent Shortage<sup>3</sup>**

**Faster Adversaries<sup>4</sup>**

**Tool Overload<sup>2</sup>**

# Previously on ...

## Happenings

- The digital word is the Cybersecurity Arena (**Bring your own Threat**)
- Cybercrime costs 10,5 trillion in 2025.
- MS generated 37 billions of revenue in 2025;
- MGM Resort and Snowflake
- The average age of those arrested is 19

# Complete Protection

## Endpoint

- NextGen Antivirus (AI)
- Ransomware Protection
- Exploit Protection
- Malware Protection
- Credential, Files, Documents Protection
- Device Control
- Endpoint Detection & Response
- Full Endpoint Visibility
- Endpoint Security Posture Management
- Windows Event Visibility
- Secure Remote Shell

## Network

- Domain & Phishing Filtering
- Network Scan Detection
- Network Poisoning Detection
- Tunnelling & Exfiltration Detection
- External Attack Surface Management / Port Scanning
- Network Anomaly Detection

## Identity & User

- ITDR
- User Activity Visibility
- Lateral Movement Detection
- User Anomaly Detection
- Deceptive Users

## SaaS & Cloud Apps

- Security Misconfiguration Detection & Remediation
- Compliance Management
- Reports & Notifications
- Cloud Users & Resource Inventory
- SaaS & Cloud User Behavior Anomaly Detection

## Mobile

- Device, Network, App & Phishing Threat Detection
- On-Device Remediation
- Mobile App Risk Detection & Mitigation
- iOS, Android & Chrome OS Devices

## Email

- Integration with Office 365
- Phishing Prevention
- Malware Prevention
- Exploit Prevention
- Unauthorized Senders Management
- Block Malicious File Extensions
- Safe URLs

genera un'immagine che rappresenti il busto di Darwin?

# Test detection & response

Cynet made MITRE ATT&CK history as the **first vendor** to achieve 100% Visibility, 100% Context-Rich Detection, 0 False-Positives, and 100% Prevention Rate without any configuration changes, and is the **only vendor** to deliver these results in **back-to-back** years

# Folks will help

---

# GTG-1002

**Phase 1:** Campaign initialization and target selection

**Phase 2:** Reconnaissance and attack surface mapping

**Phase 3:** Vulnerability discovery and validation

**Phase 4:** Credential harvesting and lateral movement

**Phase 5:** Data collection and intelligence extraction

# **AGENTIC AI** **abilities**

**BACKED by  
HUMANS**

# Platform Differentiators

**Thank You**
